Launch Control XL 3 — Track 010 — ambient house (two controllers)

Ambient house in D minor, 120 BPM, a sunrise mood. Jojo plays the foundation (kick, bass, drums, congas), Jonas the colour (pad, chords, melodies, birds) and the global column 8.

Every row means the same everywhere: row 1 = brightness, row 2 = space, row 3 = character, fader = level, button 1 = next pattern (at the next bar), button 2 = a moment while held.

Start with all faders down. Nothing sounds until Jonas' master fader (column 8) is up. Chapter (Jonas, column 8) changes the chords for everybody at the next 4-bar phrase.

The status box at the bottom right of the Strudel page shows chapter, break and each stem's pattern. Its button “als Fenster” opens it as a small window that stays on top (Chrome/Edge).

Guide

Sunrise

Start like the sky before dawn: Jonas brings pad and birds, Jojo the atmo pump and the sub. The kick comes only when both are ready.

Playing together

Jojo builds the floor: kick, sub, off-beat hats, then the rolling bass and the groove (congas, shaker). Keep it dry; the room belongs to Jonas.

Jonas colours it: pad and deep chords first (all knobs at 0 is a good start), then arp and marimba. The lead is for the long, slow moments.

Chapter changes the chords for both players at the next 4-bar phrase: sub, bass and every melody follow. Pad button 2 (freeze) holds the chord for everybody.

Build-up and drop

Jonas turns Tension up (echo, open filters, snare roll), presses Break at the top: the beat goes out, pad and birds float. Jojo holds the atmo riser, Jonas presses Break again: back on the one. Then let Tension go.

Every position sounds good

No filter closes completely. Arp, lead and marimba keep a little room even at space 0.
