Launch Control XL 3 — Track 010 — ambient house

Ambient house in D minor, 120 BPM, a sunrise mood. Jojo plays the foundation (kick, bass, drums, congas), Jonas the colour (pad, chords, melodies, birds) and the global column 8.

Every row means the same everywhere: row 1 = brightness, row 2 = space, row 3 = character, fader = level, button 1 = next pattern (at the next bar), button 2 = a moment while held.

Start with all faders down. Nothing sounds until Jonas' master fader (column 8) is up. Chapter (Jonas, column 8) changes the chords for everybody at the next 4-bar phrase.

Every Launch Control XL 3 gets this full layout: Mode 1 = Jojo (foundation, columns 1–7; Jojo's column 8 (Shaker / Ride) stays off; Mode 1 sends the same CCs as Mode 16), Mode 2 = Jonas (colour). Column 8 is global on both pages. Two controllers: the control moved last wins.

CC 44 **Chapter** next chord progression for all, at the next 4-bar phrase.
Button 2 Moment	CC 93 **Freeze** holds the current chord while held, for everybody.	CC 94 **Stab** a chord on every off-beat while held.	CC 95 **Octave** one octave up while held.	CC 96 **Echo throw** long echo on the lead while held.	CC 97 **Answer** the phrase plays in every bar while held.	CC 98 **Run** chord runs, denser while held.	CC 99 **Flock** a whole flock calls while held.	CC 52 **Break** 1st: low end out. 2nd: all back on the one.

Guide

Sunrise

Start like the sky before dawn: Jonas brings pad and birds, Jojo the noise pump and the sub. The kick comes only when both are ready.

Playing together

Jojo builds the floor: kick, sub, off-beat hats, then the rolling bass and the groove (congas, shaker). Keep it dry; Space belongs to Jonas.

Jonas colours it: pad and deep chords first (all knobs at 0 is a good start), then arp and marimba. The lead is for the long, slow moments.

Chapter changes the chords for both players at the next 4-bar phrase: sub, bass and every melody follow. Pad button 2 (freeze) holds the chord for everybody.

Both Launch Controls have the full layout and steer the same sounds: whoever moves a control last sets its value, a button press counts from either. Agree who plays which page.

Build-up and drop

Jonas turns Tension up (echo, open filters, snare roll), presses Break at the top: the beat goes out, pad and birds float. Jojo holds the noise riser, Jonas presses Break again: back on the one. Then let Tension go.

Every position sounds good

No filter closes completely. Arp, lead, marimba and birds keep a little reverb even at Space 0.

Status box

The status box at the bottom right of the Strudel page shows chapter, break and each stem's pattern. Its button “als Fenster” opens it as a small window that stays on top (Chrome/Edge).

Playing alone

A run is: build the beat in Mode 1, switch to Mode 2, add colour, use column 8 for the drop. Mode 1 is set up in Components with the same CCs as Mode 16.

Faders are shared hardware: after a mode switch each sound keeps its value until you touch its fader, then it jumps to where the fader physically is. Move faders gently after switching.
