Launch Control XL 3 — Track 009 — happy house (two controllers)

Happy house in A major, 124 BPM. Jojo plays the foundation (kick, bass, drums, congas), Jonas the colour (strings, piano, hook, chops) and the global column 8.

Every row means the same everywhere: row 1 = brightness, row 2 = space, row 3 = character, fader = level, button 1 = next pattern (at the next bar), button 2 = a moment while held.

Start with all faders down. Nothing sounds until Jonas' master fader (column 8) is up. Chapter (Jonas, column 8) changes the chords for everybody at the next 4-bar phrase.

The status box at the bottom right of the Strudel page shows chapter, break and each stem's pattern. Its button “als Fenster” opens it as a small window that stays on top (Chrome/Edge).

Guide

Playing together

Jojo builds the floor: kick first, then sub and the off-beat hats, then clap, bassline and the groove (congas, shaker). The noise pump glues to the kick.

Jonas colours it: strings or piano first (all knobs at 0 is a good start), then arp and bells. Vocal hook and chops are for the peaks.

Chapter changes the chords for both players at the next 4-bar phrase: sub, bassline and every melody follow. Strings button 2 (freeze) holds the chord for everybody.

Build-up and drop: Jonas turns Tension up (echo, open filters, snare roll), presses Break at the top: the beat goes out, strings and piano float. Jojo holds the noise riser, Jonas presses Break again: everything is back on the one, with a crash. Then let Tension go.

Every position sounds good

No filter closes completely. Arp, hook and chops keep a little room even at space 0.
