Launch Control XL 3 — House Harmony Lab (lab/keys, round 1 for 009: chord changes)

One progression per column, all with the same sound mix. Pull up one fader at a time; the bass follows the leftmost column that is up.

Sound: hold any column's button 2 and turn its knobs: 1 = piano → Rhodes, 2 = B3 → M1, 3 = vibraphone → marimba. Each knob: 0 silent, first third the first sound fades in, middle third blends into the second at equal loudness, last third the second fades out. Touch follows Brightness. In Mode 2: faders 1-4 = grand, Rhodes, organ, vibraphone layers; knob 3 above each changes its character; faders 6 and 7 = drums and bass.

"? LC groß" in the status box opens the dashboard: every control, its value, the pattern, the chord and the beat.

Guide

The progressions

1 Kerri riff: the riff from the video, Am9 – Dm9 – Gm9 inside one bar. 2 System: Am9 – Gm9 – Am9 – Dm9, Kerri's shape (the 7th at the bottom, the 9 instead of the root). 3 Happy: major 7ths. 4 Deep: Am9 – D9, a minor vamp. 5 Italo: plain triads, big and bright. 6 Am – F – C – G: plain triads, the classic pop-house loop.

Constancy

Every progression is four bars and repeats unchanged. Change comes from you: filter, length, layers, another rhythm.
