Launch Control XL 3 — Arp Cascade (lab/synth)

One 12-step dorian arpeggio in ten registers at once, plus kick and tom-bass. All knobs at 0 and all faders up = the original sound from tutorial.str.

The knobs are set to 0 on load. Button row 1 steps on with every press (re-evaluating starts over). Density: 4 = straight, 3 = floating, 2 = half-time, 6 = driving; kick 4 + tom 3 = 3-against-4 polyrhythm. Each arp column has its own motif, so they can play against each other.

Knob Fader Button unused
