Launch Control XL 3 — House Keys Lab 18 (lab/keys, round 18 for 009: overtones follow the accent)

One sound per column: 1 GM Rhodes, 2 grand, 3 Steinway, 4 Rhodes Mark I, 5 organ B3, 6 organ M1, 7 vibraphone, 8 grand + B3 organ.

Shift + the column's fader = how strongly the overtones follow the accent: 0 = every hit equally bright, half = as in round 11 (accents brighter), full = twice that. The accent's loudness stays as decided (round 11).

In Mode 2: fader 6 = drums (knob 1 = swing, button 2 = drums out), fader 7 = bass.

Guide

What to listen for

Shift fader 0, half, full per column: do the hits sound played, accents brighter, without single hits standing out? Note per column: keep / drop and the fader position.

Harmony

One chord only: Am9 in Kerri Chandler's shape (the 7th at the bottom, the 9 instead of the root). Chord changes have their own board: house-harmony-lab.
