Launch Control XL 3 — Track 009 — dry house (two controllers)

Dry, happy oldschool house in A minor, 124 BPM: short sounds, one piano hook on the off-beats. Jojo plays the rhythm (kick, bass, drums, percussion), Jonas the melody (keys, trumpet stabs, sax, vocal chops, pluck, marimba, pad) and the global column 8.

Every row means the same everywhere: row 1 = brightness, row 2 = space, row 3 = character, fader = level, button 1 = next pattern (at the next bar), button 2 = a moment while held.

Start with all faders down. Nothing sounds until Jonas' master fader (column 8) is up. Chapter (Jonas, column 8) switches between one chord (Vamp) and two chords (Wechsel) at the next 4-bar phrase.

The status box at the bottom right of the Strudel page shows chapter, break and each stem's pattern. Its button “als Fenster” opens it as a small window that stays on top (Chrome/Edge).

Guide

Building it up

One layer after the other, not all at once: drums (kick, hats, clap), then bass and sub, then the keys, then one or two top voices, then percussion (congas, tambourine). Start in Vamp.

Keys and top voices

Keys are the only chords: row 3 changes the sound (piano → Rhodes → organ), not the part. Horns, sax, vocal, pluck and marimba each play a riff that repeats; button 1 = the next riff, Play (row 3) lets it improvise. Two top voices at a time, answering each other, is plenty.

Break and drop

Jonas presses Break: the whole rhythm goes out at the next bar, only keys or pad keep playing (pull the rest down). Jojo holds the riser (noise pump, button 2). Jonas switches Chapter to Wechsel and presses Break again: everything is back on the one, now with two chords.

Every position sounds good

All knobs at 0 is dry, close and clear, as the track is meant to be. Space adds room, it does not repair. Every column has its own fader: each layer can be muted on its own.
