Launch Control XL 3 — Track 008 — groove techno (two controllers)

Groove techno on F, 140 BPM. Jojo plays the foundation (kick, bass, drums), Jonas the colour (pad, chord pulse, melodies) and the global column 8.

Every row means the same everywhere: row 1 = brightness, row 2 = space, row 3 = character, fader = level, button 1 = next pattern (at the next bar), button 2 = a moment while held.

Start with all faders down. Nothing sounds until Jonas' master fader (column 8) is up. Jonas' pad button 1 changes the chords, and Jojo's sub and bassline follow.

The status box at the bottom right of the Strudel page shows chapter, break and each stem's pattern. Its button “als Fenster” opens it as a small window that stays on top (Chrome/Edge).

Guide

Playing together

Jojo builds the floor: kick first, rumble right next to it, then sub and hats, then clap, bassline and the groove (percussion, ride).

Jonas colours it: pad first, then the chord pulse under it (all knobs at 0 is a good start), then the sequence. Lead, answer and pings are for the peaks, the breathing FX for long transitions.

The pad's button 1 changes the chords for both players: Jojo's sub and bassline move with it. Pad button 2 (freeze) holds the chord for everybody.

Break: one press takes out kick, rumble, sub, bassline and clap at the next bar; hats, percussion, ride and all of Jonas' sounds keep going. Turn Tension up during the break, press again: everything is back on the one. Then let Tension go.

Every position sounds good

No filter closes completely. Sequence, answer and FX keep a little room even at space 0.
